Subject: Updated table for 3a)

Dear Sam

Please find below an updated table showing the current situation regarding the redundancy process occurring in Agriculture and Food ahead of our next meeting.

The changes reflect the fact that the consultation process has provided information that has led to different decisions being made in 3 cases. We currently have 15 out of the original 20 redundancies confirmed to proceed with a further 2 requiring a decision in the coming weeks.

I can provide more information at the meeting.
